Internet of things (IOT) will become part of life:

In our presentation we will cover **Internet of things (IOT) will become part of life** and tell the audience about the daily use. IOT, is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers (UIDs) and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

In this way our team will study IOT in details and get gather knowledge about this technology. The presentation will provide the audience knowledge about upcoming future of IOT.
